Education

University of Granada Granada, Spain
Double degree in Computer Science and Math *Sep 2022 — present (fourth year)*

- Relevant Coursework: Artificial Intelligence, Machine Learning, Data Structures, Object Oriented Programming, Concurrent and Parallel Programming, Metaheuristics, Probability and Statistics, Mathematical Analysis, Mathematical Models, Differential Equations, Geometry, Computer Graphics.

Colegio Inmaculada Niña Granada, Spain
Bachillerato Ciencias Tecnológicas *Sep 2020 — Jun 2022*

- Attained an average grade 9.8/10 in the Título de Bachiller in Technological Sciences (school diploma).

Federación Española de Rugby Granada, Spain
Sports technician , High-performance rugby player *2021 — 2021*

- Formed in rugby coaching, sports event planning and first aid in sports.

Conservatorio Profesional de Música Ángel Barrios Granada, Spain
Musician *2013 — 2020*

- Studied percussion for several years and participated in various wind bands.

Work Experience

Rugby coach Sep 2021 — Jul 2024
University of Granada *Granada, Spain*

- Categories from 4 to 16 years.
- Organization of training sessions, competitions, and rugby events.

Receptionist Jun 2022 — Sep 2022
Vaulali Hostel *Tau, Norway*

- Tourist orientation, room assignment, and exterior maintenance of the hotel.

Projects

Ai Rescuers Feb 2025 — Apr 2025

- Developed an AI agent for the Artificial Intelligence subject using A* and Dijkstra algorithms. The system optimizes pathfinding to complete mission objectives by minimizing energy waste and adhering to strict time constraints.
- Throughout the project's development, we evaluated several heuristics and mapping techniques to optimize terrain scanning in the virtual environment.

Parcheckers Apr 2025 — Jun 2025

- Developed an AI agent for an Artificial Intelligence course, implementing Minimax algorithm variants with advanced pruning techniques and custom heuristics. The system optimizes decision-making in a competitive two-player board game involving dice rolls and movement constraints.

Volunteering

Muala Marine Sanctuary Summer 2024
Nacala, Mozambique

- The main goal of the volunteering is to rebuild the coral barrier of Nacala Bay and help the local communities to find a sustainable diet without harming the environment.

Hygee Farm Summer 2023
Quang Nam, Vietnam

- Volunteered at a sustainable farm in a rural village in Vietnam, immersing myself in authentic Vietnamese culture and customs through daily life, traditional meals, and the local landscape, while teaching English to local youth.
- Collaborated with 10 other international volunteers, gaining experience in building relationships and working with people from diverse backgrounds and different age groups.

Skills

- **Programming Languages**:C++, Python, Java, Bash, SQL, Ruby, GDScript.
- **Technologies**: Git, Linux, Pytorch, Matplotlib, scikit-learn, Pandas.
- **Language skills**: C1 Cambridge English certificate, Spanish.
- **Interests** :Machine learning, AI, robotics, sports, chess, travel.
